PAYOT

PAYOT, founded in 1920 by Dr. Nadia Payot, was born in the intimate setting of the first French beauty salons. She brought her expertise to serve women by blending science with sensoriality.

In the 1950s, she created the PAYOT Method, a choreography of 42 movements inspired by dance and her friend, the famous ballerina Anna Pavlova—a revolutionary approach that gave birth to the concept of the facialist.

For over 100 years, the laboratory has combined natural extracts with cutting-edge molecules to create treatments that are both effective and sensorial: melting textures, subtle fragrances... Each product reinvents the beauty ritual with elegance and efficiency.
