# Our Partner Brands

## Green Spa

---

DAYA Spa has chosen Green SPA for its high-end, organic, and natural cosmetic products, **made in France, vegan, and environmentally friendly**.

Each product is a perfect fusion of **science and nature**, with ideal textures and captivating fragrances that turn beauty routines into luxurious, sensorial experiences.

What makes Green SPA unique is its commitment to using **natural and organic ingredients**, in a quest for excellence certified by the prestigious **COSMOS Organic label, awarded by Ecocert**.

Moreover, the fragrances offer a truly **sensorial experience**: a unique olfactory signature that leaves an unforgettable impression. The brand collaborates with **Grasse master perfumers**, who use their expertise to craft exceptional compositions. The rarest and most precious essences are carefully selected to create perfumes that elevate every treatment.

## PAYOT

---

Founded in 1920 by Dr. Nadia Payot, PAYOT was born in the intimacy of the first French beauty salons.

She dedicated her expertise to women, blending science and sensuality. In the 1950s, she created the PAYOT Method, a choreography of 42 movements inspired by dance and her friend, the famous ballerina Anna Pavlova — a revolution that gave birth to the modern facial concept.

For over 100 years, the laboratory has combined natural extracts and advanced molecules to create treatments that are both effective and sensorial: melting textures, delicate scents... each product reinvents the beauty ritual with elegance and efficiency.

## TooFruit

*The Made in France  
brand for kids*

---

It selects the best active ingredients from fruits to create perfect formulas that meet children's needs and desires.

The products, with their natural and delicious scents, are made with 99% natural ingredients, and are free from parabens, sulfates, and silicones.
